—

OVER **70** YEARS

Founded in County Cavan in 1952, Flair Showers have built up a trusted reputation as a specialist in the production of quality shower doors, wetrooms and bath screens. Our reputation has stood the test of time, making us the oldest manufacturer of our kind in Ireland. We are proud to be a brand of choice for customers internationally.

With an unwavering commitment to customer care, Flair combine lifelong knowledge and expertise with advanced production techniques. We can accommodate a great variety of bathroom styles with an extensive product portfolio. Our mission is to inspire through meaningful designs that bring a new sense of enrichment to the bathroom and enjoyment to our customers. As you explore the Harmony Collections catalogue, we hope you are captivated by every detail.

The perfect blend of function and form. Designed for life.

AWARD WINNING PRODUCT DESIGNS

Flair's unrelenting passion for innovation has achieved International recognition in the form of numerous design award accolades.

GOOD DESIGN AWARD® (CHICAGO)
Founded in 1950 by architects Eero Saarinen, Charles and Ray Eames and Edgar Kaufmann, **GOOD DESIGN®** is the world's oldest Design Awards program. It is organised annually by The Chicago Athenaeum Museum of Architecture and Design. It recognises the work of manufacturers who have undertaken the design challenge to produce product of the most outstanding design globally.

RED DOT DESIGN AWARD (GERMANY)
The **Red Dot** label is recognised as a warranty of design excellence. It is awarded to entrants who demonstrate an innovative spirit with product of the highest quality, form and function gaining this design awards honour.

iF DESIGN AWARD (GERMANY)
The **iF DESIGN AWARD** recognises exceptionally well-designed products. Since 1953, an esteemed jury of International design experts have awarded this symbol to product that is user focused, ergonomic and efficient in its design.

ORO

ORO TRIO OF DESIGN AWARDS

Flair are proud to have received three design accolades in recognition of the ORO frameless shower door collection.

The Good Design Award, RedDot Award, and iF Design Award are seals of global design excellence and a testimony to our passion for product quality and innovation.

THE ORO® COLLECTION

In creating the ORO range, our aim is to enrich lives with beautifully designed products for living and giving, that are a pleasure to use.

With a graceful aesthetic, the award winning ORO collection is a union of design innovation and functional perfection. Throughout an extensive product development process, there was tight collaboration between design, engineering and manufacturing to prototype, test, refine and produce this signature range.

The hand crafted ORO door handles are one of a kind and distinctly individual. The patented magnetic guide system provides a smooth and effortless gliding action for each sliding door. Elegance shines through the curved profile and hinge detailing. Each ORO component is carefully considered to enhance your experience every day.

SLIDING DOOR

A delightful choice, the ORO Sliding Door glides along with smooth perfection. The patented magnetic guide on the bottom of the door is the first of its kind on the market. 8mm toughened safety glass offers a tactile feeling of strength and quality.

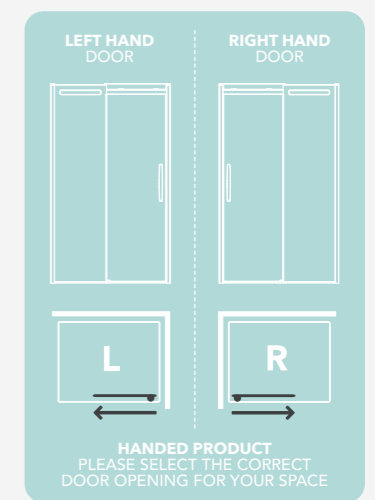

The floating top rail design is a signature characteristic of the ORO range. With a seamless interior cover cap, the top rail also cleverly conceals the roller system. The finishing touch is the unique handle design – beautifully formed and a pleasure to use.

SLIDING DOOR WITH TWO INLINE PANELS

The Sliding Door with two inline panels provides a sleek, contemporary look while maximizing space.

The patented magnetic guide system is designed to guarantee the smoothest motion as the door glides around the bottom rail. The sliding door with two inline panels can be installed in an alcove or with a frameless side panel option and is the perfect choice for a large, luxurious showering zone.

SLIDING QUADRANT DOOR

Creative engineering has shaped the unique ORO Sliding Quadrant. The top floating rail design ingeniously encloses the roller system to give the door a sleek polished look. Practically speaking, the concealed rollers ensure reduced cleaning time.

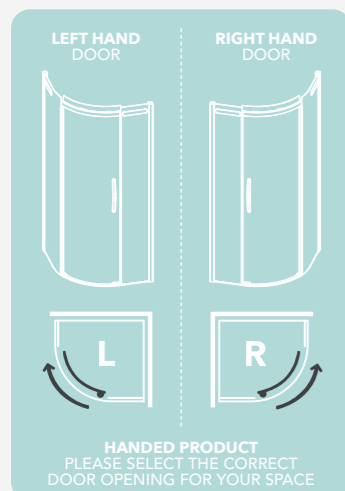

Functional distinction continues with the patented magnetic guide system – this design innovation guarantees the smoothest motion as the door glides around the bottom rail. The final detail is the crafted handle design, befitting for the overall elegance of this door.

SLIDING OFFSET QUADRANT DOOR

Generously proportioned, the ORO Sliding Offset Quadrant is designed to impress in your bathroom. The signature floating rail design cleverly encloses the rollers to give the door a sleek appearance.

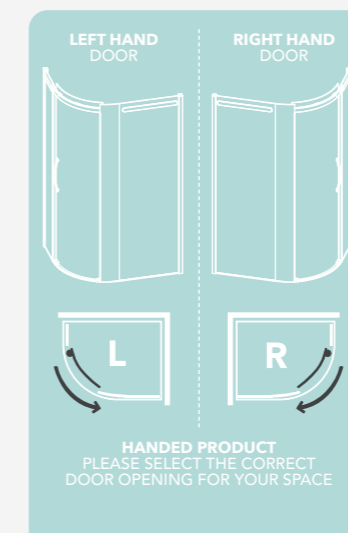

Design excellence continues with the patented magnetic guide system ensuring the smoothest of motion as the door glides around the bottom rail. The crafted chrome handles have perfect symmetry, in line with the overall elegance of the door.

BIFOLD DOOR

The ingenious design of the ORO Bifold Door makes it a firm favourite amongst this 8mm shower door range.

The innovative 180 degree hinge mechanism enables the door to open inwards and outwards, offering you total flexibility. A self stop hinge action prevents the door glass extending into contact with the shower wall or door hinges. The bifold hinge is meticulously engineered giving this frameless door exceptional stability. The signature ORO handle design adds the finishing touch to this bijoux beauty.

HINGE DOOR WITH INLINE PANEL IN ALCOVE - SILVER

HINGE & INLINE DOOR (RIGHT HAND) WITH SEMI FRAMED SIDE PANEL - MATTE BLACK

HINGE & INLINE DOOR (LEFT HAND) IN ALCOVE - SILVER

HINGE & INLINE DOOR

Striking in its appearance, the ORO Hinge and Inline door is a statement piece for your bathroom.

The **gently curved hinges** have a countersunk interior design and can be wiped clean with ease. The **T-bar stabiliser** has concealed fixings and its sleek construction blends subtly into the products profile. Ultra clear magnetic seals giving a superior close action. The finishing touch is the **crafted chrome handles**, their perfect symmetry complementing the overall elegance of the door.

INLINE PANEL TO SUIT HINGE & INLINE DOOR

The ORO hinge & Inline door installed with an inline panel achieves a luxurious, spacious feel whilst not compromising on functionality.

With an emphasis on frameless aesthetics, the curved hinges are countersunk on the interior allowing for effortless cleaning of the shower glass. The 8mm toughened safety glass stands at 2 metres tall and boasts Clearvue hydrophobic coating, making this shower door the perfect blend of form and function.

HINGE & INLINE DOOR WITH INLINE PANEL IN ALCOVE - SILVER

BIFOLD DOOR WITH ULTRA FRAMELESS CORNER SIDE PANEL

The ORO Bifold and ultra frameless corner side panel is a truly versatile shower door choice. Designed to open both inwards and outwards, the self stop hinge mechanism prevents the bifold door from folding into contact with the glass panels. The **raised stabilising bar** is engineered to accompany the **frameless corner side panel** and with its extra height, allows the door to fold inwards without restriction.

STEP 1 - SELECT SIZE OF ULTRA FRAMELESS CORNER SIDE PANEL

HINGED AND INLINE DOOR

Please select carefully the ORO Hinge and Inline Door that is the correct hand opening for your space.

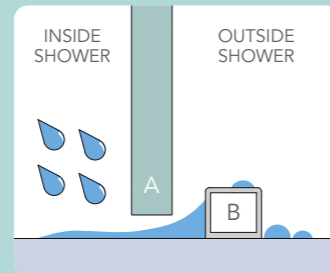

ORO[®] WATER RETENTION GUIDE

ORO Sliding Doors have an award winning design that reduces the need for invasive seals or large bottom rails allowing the customer a unique frameless showering experience.

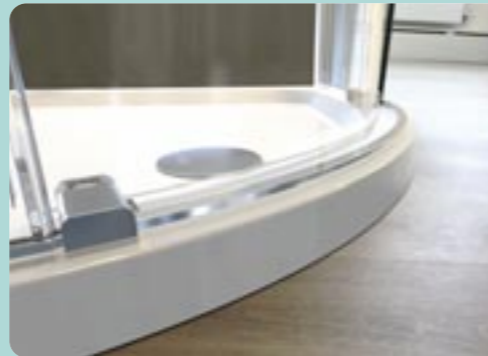

As standard, ORO Sliding Doors come with a minimalist bottom barrier bar that does not include the use of an invasive seal or large bottom rail as part of the frameless design.

The ORO enclosure range is tested and certified for water retention in accordance with EN14428 where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions.

However, in unconventional showering practices, to further improve water retention and minimise any water escaping from the shower enclosure we have designed additional water retention solutions for optional use by customers.

A - Sliding Door Glass
B - Minimal Barrier Bar

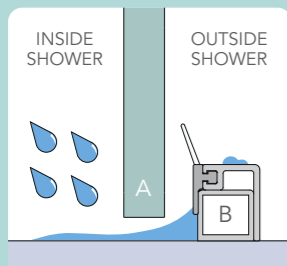

OPTION 1 THRESHOLD SEAL

The ORO Threshold seal is a minimal 15mm high silver profile with a discreet clear seal that can be easily fitted on top of the barrier bar during or after installation.

The Threshold seal will provide an increased level of water retention and protect against large surges of water escaping from the shower area. ORO Threshold seals are readily available from Flair Showers and can be ordered using the below product codes.

Product Codes:

S-OROSA110TSS, S-OROSA120TSS,
S-OROSA140-160TSS, S-OROSQTSS

A - Sliding Door Glass
B - Minimal Barrier Bar
1 - Threshold Seal

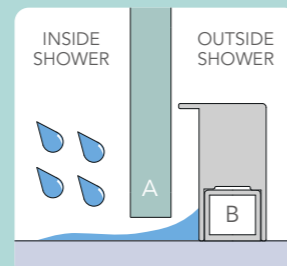

OPTION 2 THRESHOLD BARRIER BAR

The ORO Threshold Barrier Bar is a larger 27mm high barrier bar which can be easily fitted on top of the barrier bar during or after installation.

The Threshold Barrier Bar offers the highest level of water retention available in the ORO Frameless Sliding Door's design. ORO Threshold Barrier Bars are readily available from Flair Showers and can be ordered using the below product codes.

Product Codes:

S-OROSA110TBS, S-OROSA120TBS,
S-OROSA140-160TBS, S-OROSQTBS

A - Sliding Door Glass
B - Minimal Barrier Bar
2 - Threshold Bar

EETO

PRODUCT DESIGN AWARD WINNER

Flair are proud to have received the Good Design Award accolade in recognition of the ETO shower door collection.

The Good Design Award is a seal of global design excellence and a testimony to our passion for product quality and innovation.

Flair is Proudly Supported by
The European Regional Development Fund

THE ETO[®] COLLECTION

Designed to fit perfectly into your bathroom routine, the robust design of the ETO collection is coupled with clever functional innovations that will ensure long lasting high performance in your home.

The uniquely crafted handle is beautifully precise and features a cleverly integrated towel hook. The sleek handle curvature creates a truly ergonomic and tactile experience for the user. The minimalist profiles and countersunk interior hinges complement the ETO handle design, creating an elegantly contemporary aesthetic.

The stylish yet functional simplicity throughout the ETO range embodies **Design with Purpose**, a concept which lies at the heart of the ETO collection.

DESIGN WITH PURPOSE

MAGNETIC INFOLD LINKAGE SYSTEM

The ETO Infold door features a pioneering magnetic linkage system which ensures the smoothest of motion as the door functions. The solid metal linkage arm is bonded directly to the glass and provides for an ultra minimalist infold door aesthetic. This innovative design removes the need for magnetic seals, giving a beautifully seamless glass edge on the door.

MAGNETIC CUSHION CLOSE DOOR SYSTEM

A concealed piston door close system gives ETO sliding doors a controlled and gentle close action. Double rollers with stainless steel ball bearings and a stainless steel wheel bracket design deliver an effortless sliding experience as the door glides along the magnetised rail.

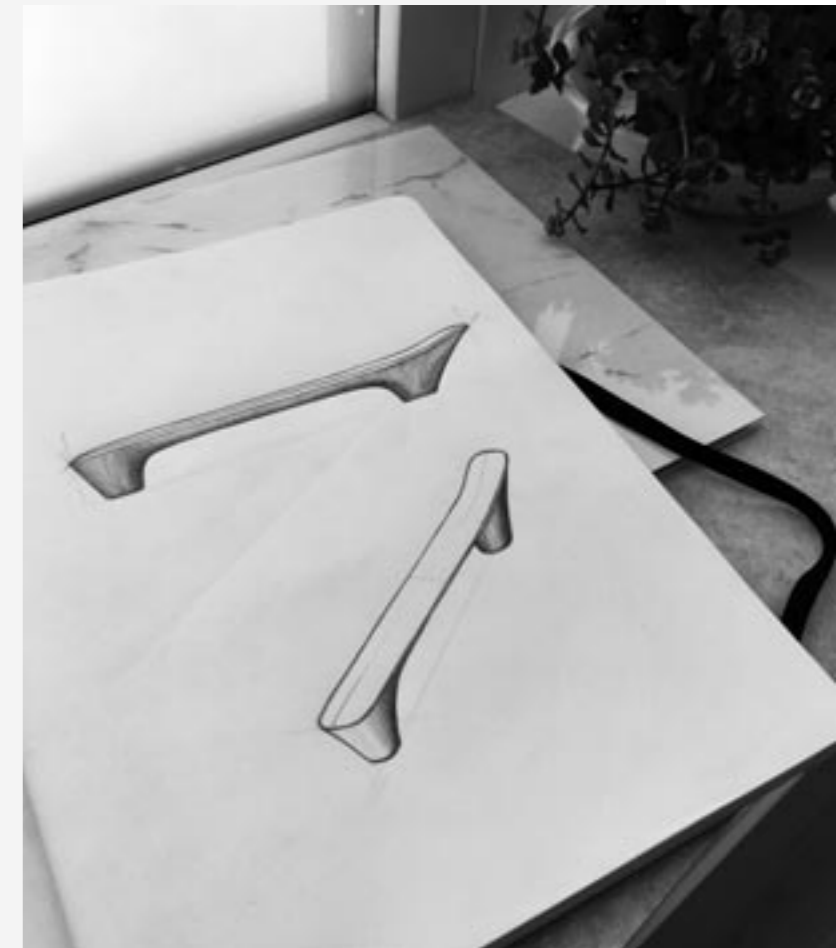

PATENTED CLICK FIT ASSEMBLY SYSTEM

With our installers in mind, Flair have designed ETO with a patented "Click Fit" Assembly System.

This revolutionary assembly mechanism is screw free and ensures each door can be installed easily and securely.

The tapered dovetail joint locks securely into position, giving a seamless connection between the vertical and horizontal profiles. This pioneering installation system ensures maximum structural integrity within every door and makes ETO the shower door of choice for the busiest of bathrooms.

(European Application No 19170695.1)

IDEA
CONCEPT
PROTOTYPE
ETO

INFOLD DOOR

The ETO Infold is the perfect blend of elegance with practical functionality.

This outward opening door protrudes minimally into the bathroom, saving on space. The unique Infold door design also affords generous access to the shower.

The ETO Infold features a pioneering magnetic linkage system which gives the door a perfectly smooth gliding action. This innovative design removes the need for magnetic seals on the glass, giving a beautifully seamless glass edge to the door.

As is standard across the ETO range, the Infold door is constructed from 8mm toughened safety glass with ClearVue hydrophobic coating. All interior fixings are fully concealed, making this shower enclosure as delightful internally as externally.

HINGE DOOR

The stylish yet functional simplicity of the ETO Hinge door makes it the ideal choice for today's contemporary bathroom.

This 2 metre high door is supported by two precisely curved hinges that boast a flush to glass interior finish which allow for ease of cleaning. 8mm toughened safety glass is coated with ClearVue hydrophobic coating to resist the build up of unwanted grime and limescale.

The ETO Hinge door can be fitted independently in an alcove setting or with a dedicated ETO side panel of choice.

ONE DOOR QUADRANT

The ETO One Door Quadrant is perfectly shaped to make the most out of a corner bathroom space.

Ideal for any bathroom, the innovative magnetic cushion close feature ensures a smooth rolling door action on this quadrant. The double wheel rollers have a stainless steel composition for longevity and their quick release design allow for ease of cleaning.

ClearVue hydrophobic coating on the 8mm toughened safety glass resists the build up of grime and limescale on the glass surface. The centrally positioned door opening provides easy access to the shower space and is considerate of furniture positioning within the bathroom.

CORNER ENTRY

The ETO Corner Entry boasts contemporary clean lines and a sturdy semi frameless design. The two door corner sliding configuration make the corner entry an ideal choice for the bathroom where space is limited.

The flush finish on the corner brackets provides for a truly seamless door aesthetic. Quick release double rollers ensure ease of cleaning while the magnetic cushion close system brings this door to a controlled and gentle stop.

Superior magnetic seals ensure watertightness and give a positive close action when both doors are drawn together.

INTRODUCING ETO[®] BRUSHED BRASS

AWARD WINNING
PRODUCT DESIGNS

ETO[®]

Enhance your bathroom with the newly launched ETO Brushed Brass shower enclosure range.

The Flair design team are uncompromising in using the finest materials as they craft our signature product ranges. ETO brushed brass profiles have an anodised finish, which means they are superbly robust and will stand the test of time.

Anodising is an electrochemical process that converts the metal substrate to a corrosion resistant durable finish. The aluminium oxide is not just applied to the surface like a plating or coating, but it is fully integrated with the underlying aluminium substrate to avoid the risk of peeling or chipping.

The uniquely crafted ETO brushed brass handle has a PVD finish to ensure maximum durability in the busy bathroom environment. PVD technology is one of the most hard-wearing surface finish processes, whereby the original base material is permanently changed to the desired colour composition. This ensures that the surface finish will not wear off or degenerate over time.

The stylish yet functional simplicity throughout the ETO Brushed Brass range embodies Design with Purpose, a concept which lies at the heart of the ETO collection.

ETO BRUSHED BRASS COLLECTION

INFOLD DOOR

The ETO Infold is the perfect blend of elegance with practical functionality.

This outward opening door protrudes minimally into the bathroom, saving on space. The unique Infold door design also affords generous access to the shower.

The ETO Infold features a pioneering magnetic linkage system which gives the door a perfectly smooth gliding action. This innovative design removes the need for magnetic seals on the glass, giving a beautifully seamless glass edge to the door.

As is standard across the ETO range, the Infold door is constructed from 8mm toughened safety glass with ClearVue hydrophobic coating. All interior fixings are fully concealed, making this shower enclosure as delightful internally as externally.

HARMONY™

PRODUCT DESIGN AWARD WINNER

Flair are proud to have received the Good Design Award accolade in recognition of the ILI shower door collection.

The Good Design Award is a seal of global design excellence and a testimony to our passion for product quality and innovation.

Flair is Proudly Supported by
The European Regional Development Fund

THE ILI[®] COLLECTION

At Flair we understand that our customers have an ever demanding daily routine. Be it first thing in the morning or as you finish the day, a shower has the power to lift your spirits, calm the mind and invigorate.

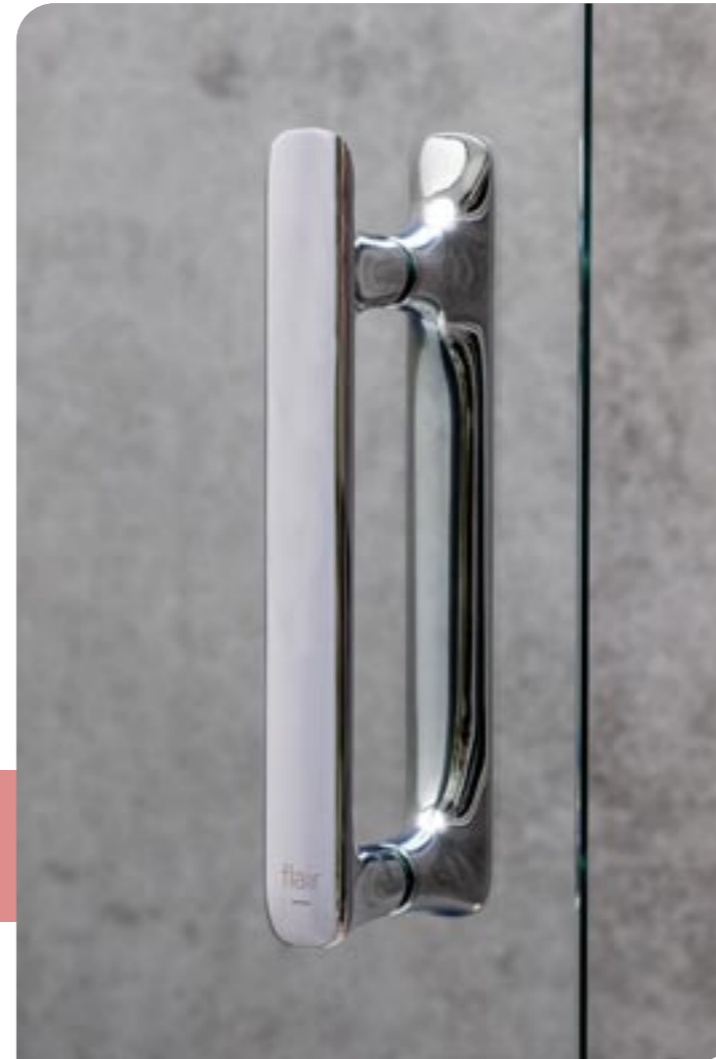

The newly launched ILI collection is the result of Flair's focus on meaningful innovation that delivers what people really need in their bathroom. The range is incredibly functional and blends style with affordable practicality. Carefully considered design details make ILI a joy to use every day. The ergonomically crafted handles feature a cleverly integrated towel hook. The minimalist profiles and neatly curved hinges give simple, clean lines to the ILI door aesthetic. Each sliding door features a silent wheel track system while clearvue coating ensures the shower door glass remains sparkling clean. For complete flexibility, ILI is available in a variety of door styles, with some non-standard door widths and reduced height options also featuring in the range.

As you explore the ILI catalogue, we hope you are captivated by every detail.

DESIGN WITH PURPOSE

MAGNETIC BIFOLD LINKAGE SYSTEM

The ILI Bifold door features an aesthetically pleasing functional magnetic system which ensure the smoothest of motion as the door functions. The beautifully curved hinge aligns with the design of ILI.

CONCEALED LONG DOOR STOP

A concealed long door stop system gives ILI sliding doors a controlled and gentle closing action. Double rollers with stainless steel ball bearings deliver an effortless sliding experience as the door glides along an innovative silent wheel track system.

PATENTED CLICK FIT ASSEMBLY SYSTEM

With our installers in mind, Flair have designed ILI with a patented "Click Fit" Assembly System.

This revolutionary assembly mechanism is screw free and ensures each door can be installed easily and securely.

The tapered dovetail joint locks securely into position, giving a seamless connection between the vertical and horizontal profiles. This pioneering installation system ensures maximum structural integrity within every door and makes ILI the shower door of choice for the busiest of bathrooms.

BIFOLD DOOR

The space saving Ili Bifold door is perfect for use in smaller bathrooms or where space is restricted.

With flexibility in mind, the door opens inwards to create optimal access. The innovative magnetic bifold hinge creates seamless functionality as the door opens and closes. As is standard across the Ili collection, the bifold door comes with a reassuring lifetime guarantee for the ultimate peace of mind.

AYYO

GOOD DESIGN AWARDS SUCCESS

Founded in Chicago in 1950, the Good Design awards honour product in design and manufacturing that have chartered a new direction with pioneering innovation. The jury awarded this prestigious accolade to AYO in recognition of its carefully considered design aesthetic coupled with the highest degree of functionality. Flair are passionate in our quest for meaningful design innovation and are proud to have received this seal of global design excellence for our latest product collection.

THE AYO[®] COLLECTION

The AYO modular wetroom collection is crafted to create a truly personal shower experience for you.

With an almost infinite choice of wetroom configurations, AYO Modular provides maximum flexibility as you personalise your dream shower space. Standing tall at a height of 2 metres, AYO comes in 8mm and 10mm toughened safety glass which is treated with a hydrophobic coating that resists the build up of grime and lime scale. An array of fixture innovations such as flush wall profiles, clever ultra-clear seals and stylish stabilising bars provides maximum versatility as each wetroom aspiration becomes the reality.

The AYO wetroom collection is available in Silver and Black profile colour as standard, with an almost infinite number of wetroom configurations possible in these finishes. To ensure perfect integration in your bathroom design, AYO is available in 5 additional premium finishes that will pair perfectly with other signature elements in your bathroom interior. Choose from Brushed Brass, Matte Nickel, White, Polished Gold and Polished Stainless Steel to create your perfect bathroom retreat.

Mindfully designed, this comprehensive wetroom collection enables the creation of practical yet supremely elegant shower sanctuaries for you to enjoy.

AYO by Flair – Creating perfect harmony.

INTRODUCING AYO®

Satisfying the balance between luxury and versatility, **AYO** is an iconic range designed to transform your bathroom into the most perfect retreat.

The AYO wetroom collection is available as standard in Silver and Black profile finishes, with an almost infinite number of wetroom configurations possible. The **AYO Colour** collection offers 5 additional luxury finishes that will pair perfectly with the signature elements in your bathroom with a choice of clear glass, fluted glass or opaque glass options.

Enjoy extra design freedom by selecting from the following premium colour finish options;

- Brushed Brass (PVD)
- Matte Nickel (PVD)
- Polished Gold (PVD)
- Polished Stainless Steel*
- White

With an unwavering focus on product quality, **AYO Colour** uses PVD technology to achieve an exceptionally durable surface finish. The PVD coating is applied to high grade 304 stainless steel base materials. **The result is a superbly robust and hardwearing wetroom designed to stand the test of time.** Testament to the quality of the surface finish, all **AYO Colour Wetrooms** are supplied with a Flair 20 year guarantee.

The Perfect Colour Match – Every Time

The PVD process allows Flair to more precisely match all **AYO Colour** sub-assemblies such as the wall profiles, cover caps and stabilising bars.

AYO[®] COLOUR

THE PVD PROCESS EXPLAINED

PVD - PHYSICAL VAPOUR DEPOSITION

PVD is a technique that applies colour on an atomic level to a base surface inside a vacuum chamber. This process physically changes the original base material to the desired colour composition, meaning that the surface won't wear off or degenerate over time.

PVD is one of the most durable colouring technologies being up to 3 times harder and 10 times more scratch resistant than the alternative surface options.

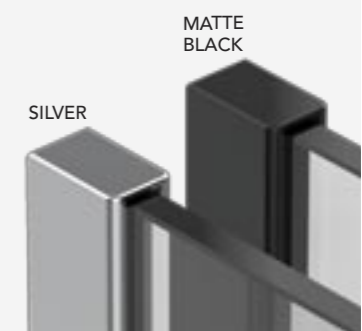

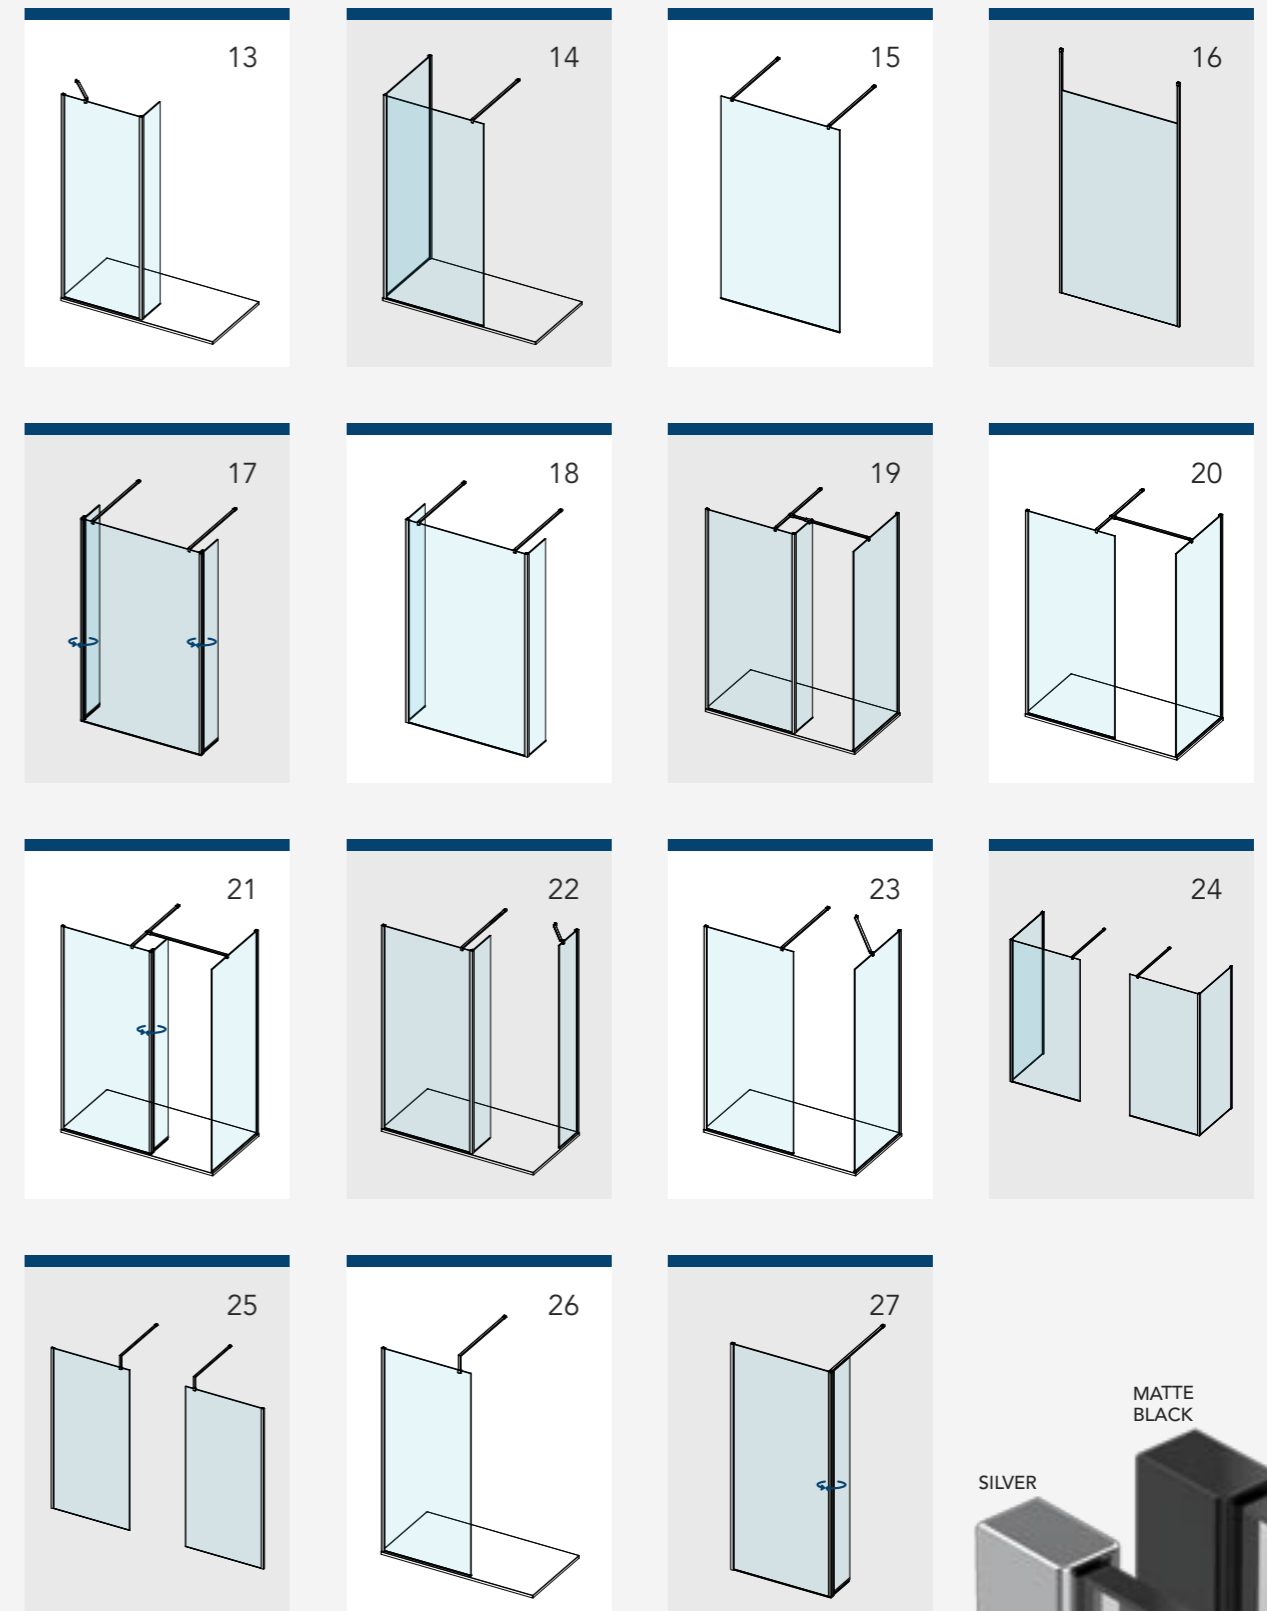

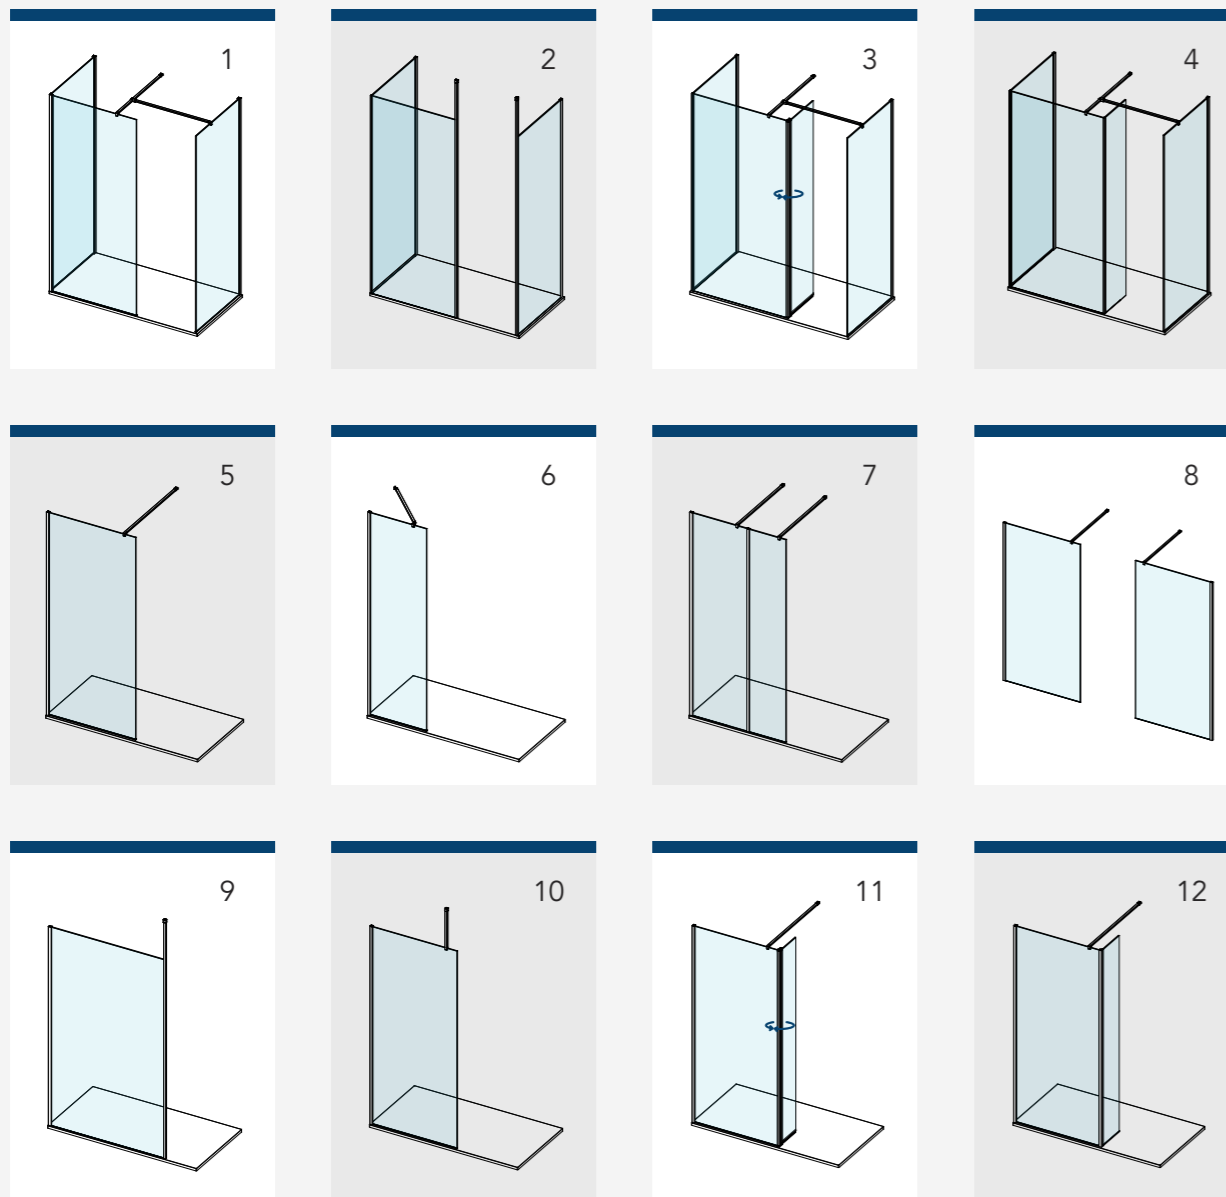

INFLUENCED BY SIMPLE AESTHETICS

The PVD Finish extends across a select offering of AYO components that includes a 15mm Wall Profile, 1200mm Straight Stabilising Bar, 650mm Angled Stabilising Bar and T Piece.

AYO 10MM WETROOM BRUSHED BRASS

SILVER & MATTE BLACK CONFIGURATION GUIDE

With an almost infinite choice of wetroom configurations, AYO provides maximum flexibility as you personalise your dream shower space.

 – Indicates Rotating Deflector Panel

WETROOM PANEL

Simple yet stylish, the AYO 8mm & 10mm toughened safety glass wetroom panel is a luxurious style statement for any bathroom. With an extensive range of glass panel sizes available, each AYO screen is secured by sleek stabilising solutions that accentuate the tall glass structure. Both 8mm and 10mm offerings are available in clear glass wetroom panels.

Newly launched and designed to bring elegance and grace to your bathroom space are the AYO 8mm fluted glass and opaque glass options. Striking in appearance, AYO Fluted & Opaque are a practical choice for those who want to add privacy to their bathroom without sacrificing on functionality.

The fluted glass offering extends to a range of hinged rotating deflector panels which are a practical yet elegant addition to the range.

Choose from an array of profile finishes including silver, matte black, brushed brass and polished gold.

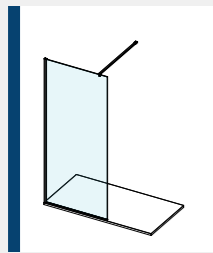

AYO Opaque is available in a silver & matte black finish only.

THE AYO® 8MM FRAMED COLLECTION

MATTE BLACK ONLY
AVAILABLE IN CLEAR GLASS & FLUTED GLASS

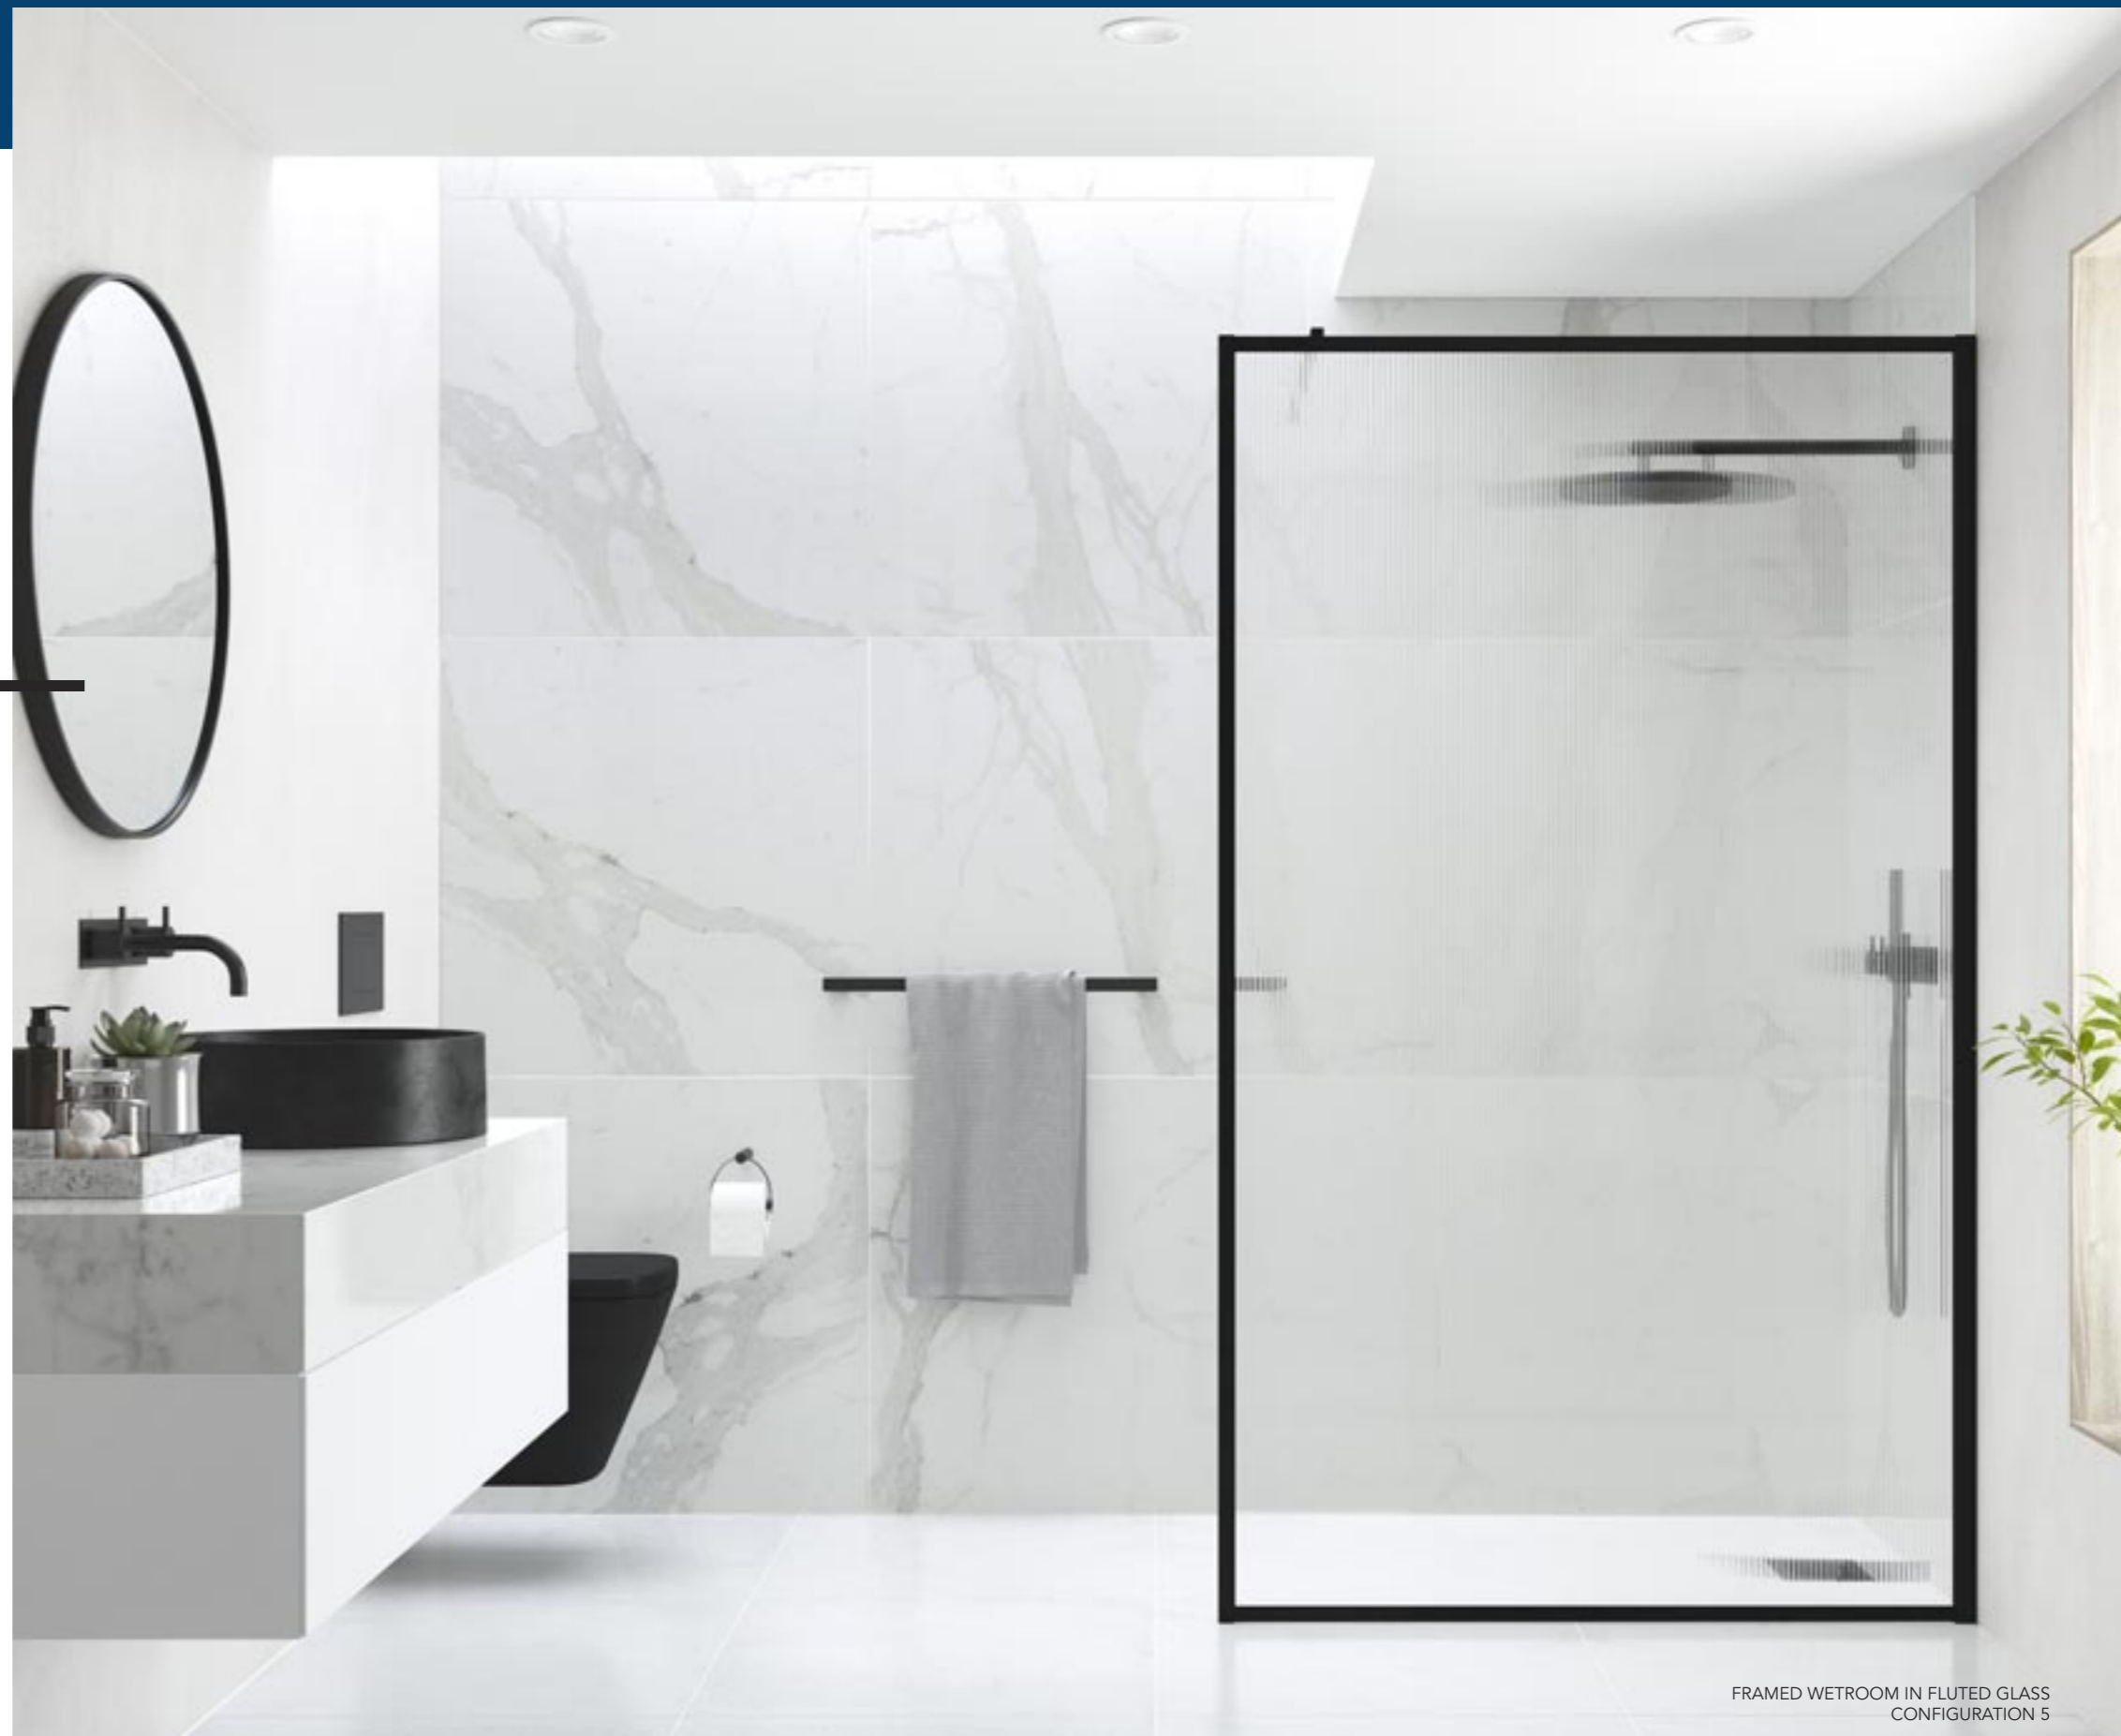

The contemporary industrial aesthetic inspired by factories and warehouses is now an established trend in bathroom design. With this in mind, the AYO Framed collection is carefully curated to deliver a striking look in the showering zone.

Standing at impressive 2 metres tall, each AYO Framed screen is coated with a Hydrophobic coating to repel against unwanted grime and limescale.

Silk screen print technology enables the interior of all AYO framed screens to retain a flush finish for ease of cleaning and maintenance. Each 8mm toughened glass panel is firstly **silk screen printed** with the black framed design applied to the glass exterior. **Black anodised metal profiles** are then bonded to the exterior of the glass panels.

Expertly designed each AYO glass panel is fully surrounded by a robust metal frame, providing maximum durability for the hardworking bathroom environment.

ANODISED MATTE BLACK METAL FRAME	20 YEAR GUARANTEE		

FRAMED WETROOM IN FLUTED GLASS
CONFIGURATION 5

LINEAR FRAMED CORNER WALK IN WETROOM

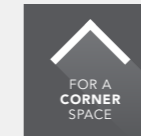

FRAMED CORNER WALK-IN WETROOM

Make a visual statement by choosing a sleek and stylish AYO Framed Corner Walk-in Wetroom.

The black anodised metal profiles fully surround each glass panel and ensure maximum durability in the busy bathroom environment. These AYO Framed fixed glass panels form a luxurious wetroom arrangement that minimises water spray into the bathroom. Easy to clean, each glass panel retains its flush interior finish and has the added bonus of a hydrophobic coating that repels unwanted grime and limescale.

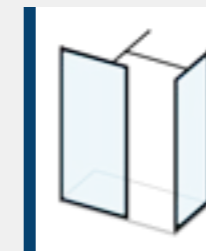

Choose from two striking design options - The Framed Wetroom or Linear Framed Wetroom style.

FRAMED WETROOM PANEL

The AYO Framed Wetroom Panel brings a subtle industrial design aesthetic to the bathroom.

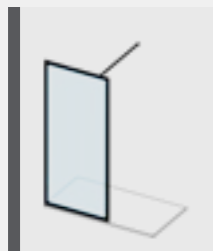

Each framed wetroom panel is constructed from 8mm toughened safety glass that is fully encased by a sturdy matte black anodised profile.

Specialist silk screen print technology is used to achieve the framed design whilst enabling the interior of the glass to retain a flush finish for ease of cleaning and maintenance. Each wetroom panel is supported by minimalist stabilising bars providing the reassurance of durability for busy family bathrooms.

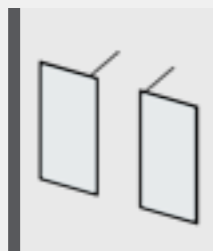

Choose from two striking design aesthetics - The Framed Wetroom or Linear Framed Wetroom style.

AYO WETROOM SILVER FINISH - CONFIGURATION 23

AYO[®]
MODULAR
WETROOM

DESIGN YOUR PERSONAL SHOWER SANCTUARY

Elevate your Showering experience with the flexibility and style of **AYO Modular**.

AYO Modular creates a step-by-step process that will help bring your dream shower space to life and is tailored to create a unique shower enclosure design that suits your style.

Choose from a variety of materials, colors, and finishes to create the perfect ambiance.

AYO MODULAR WETROOMS

STEP 1 – CHOOSE AYO GLASS PANEL(S) SIZE

Finishes: Clear glass, opaque glass and fluted glass options available.

See from page 200 for 10mm options and from page 206 for 8mm options.

STEP 2 – CHOOSE WALL PROFILE(S) REQUIRED

Colour: Choose your colour option.

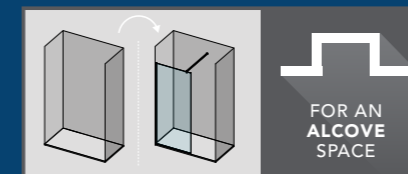

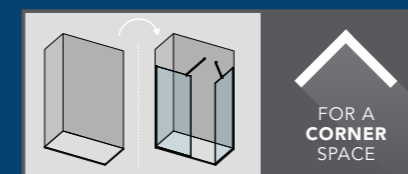

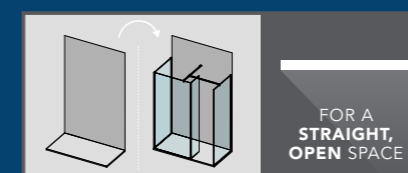

Wall Profile: Choose a 15mm wall profile (All colours) or a 35mm wall profile (Sliver and Black only) or opt for a recessed wall profile (All colours).

STEP 3 – CHOOSE STABILISING SOLUTION

Choose from a selection of stabilising solutions to suit your space and preference.

1200mm straight stabilising bar / 650mm angled stabilising bar available in all 7 colour finishes.

STEP 4 – CHOOSE ACCESSORIES OPTIONS (IF APPLICABLE)

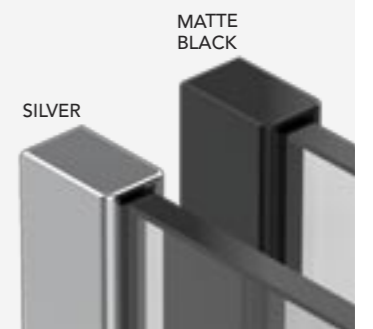

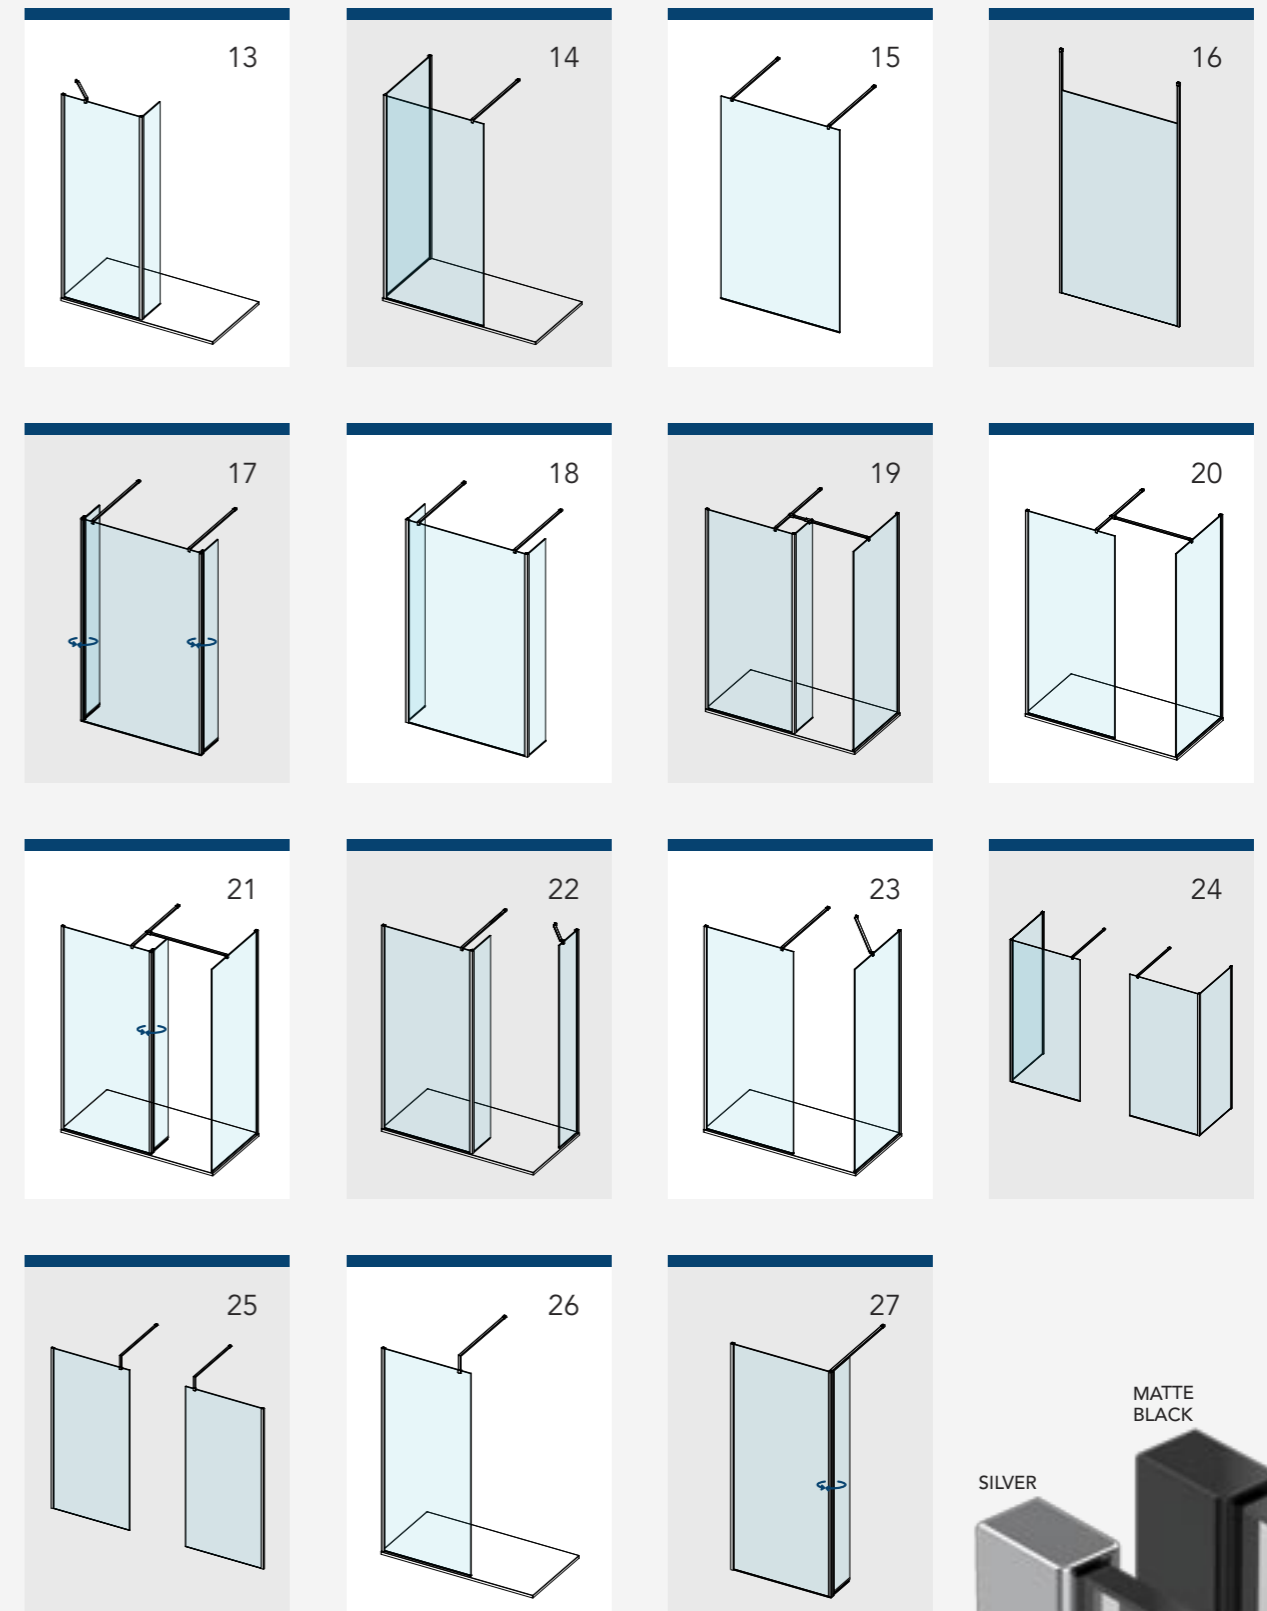

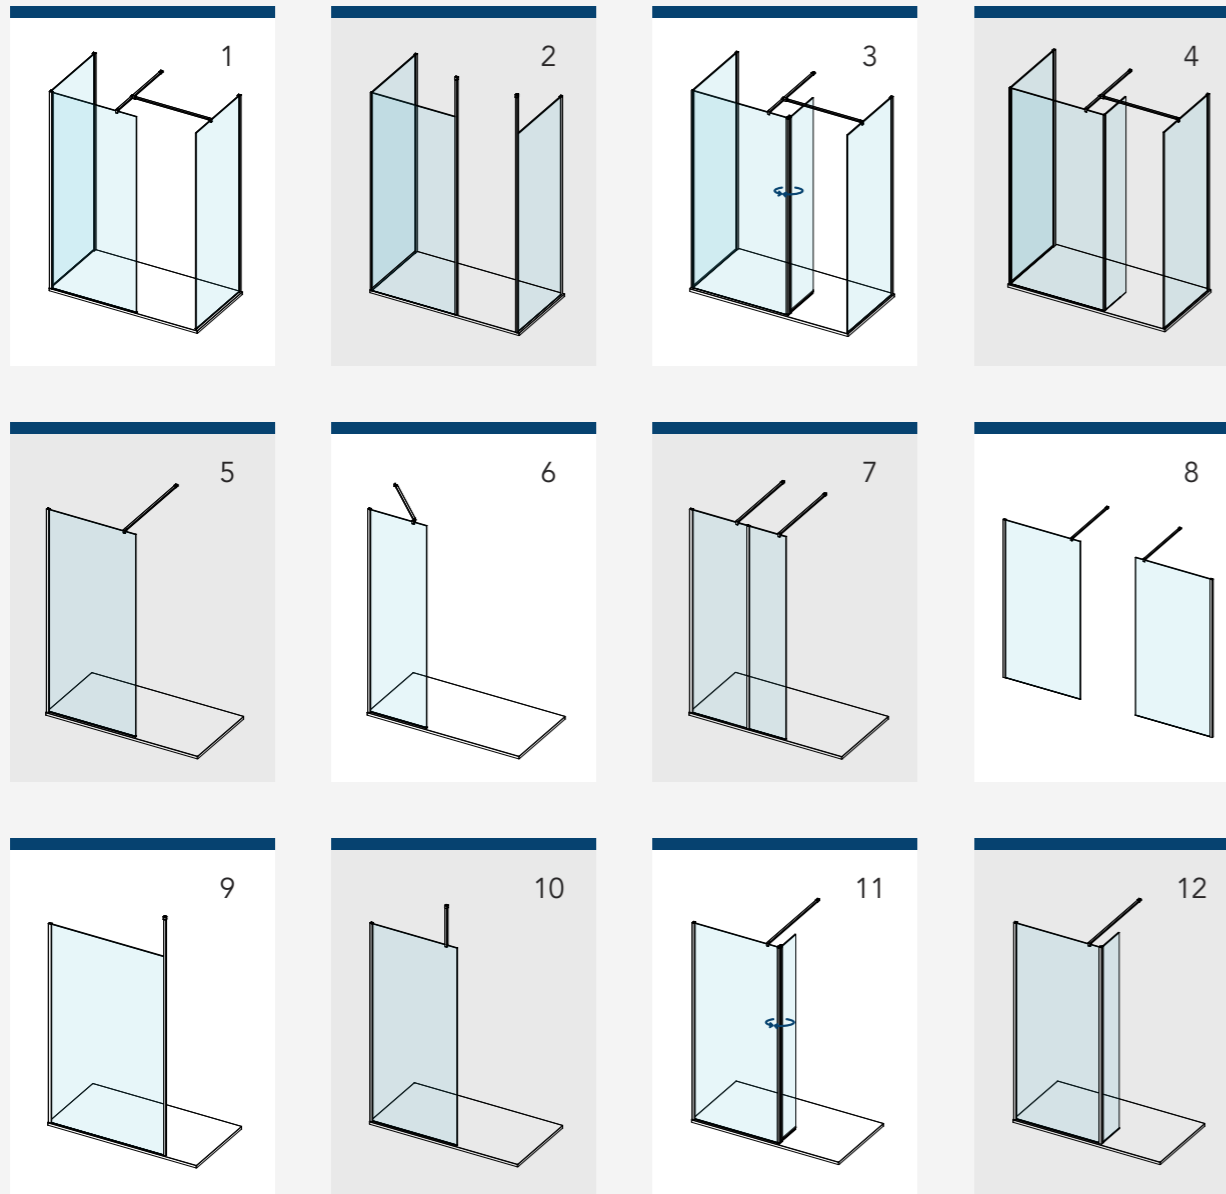

CHOOSE & MEASURE YOUR SPACE

Please note: It is suggested to leave a minimum of 500mm wide access when measuring for your wetroom panel.

SILVER & MATTE BLACK CONFIGURATION GUIDE

With an almost infinite choice of wetroom configurations, AYO provides maximum flexibility as you personalise your dream shower space.

 – Indicates Rotating Deflector Panel

AYO® COLOUR CONFIGURATION GUIDE

Please note only configurations using 1200mm Straight Stabilising Bar, 650mm Angled Stabilising Bar, T Piece and Ultra Clear Corner Seal are possible in the premium colours;

- Brushed Brass (PVD)
- Matte Nickel (PVD)
- Polished Gold (PVD)
- Polished Stainless Steel
- White

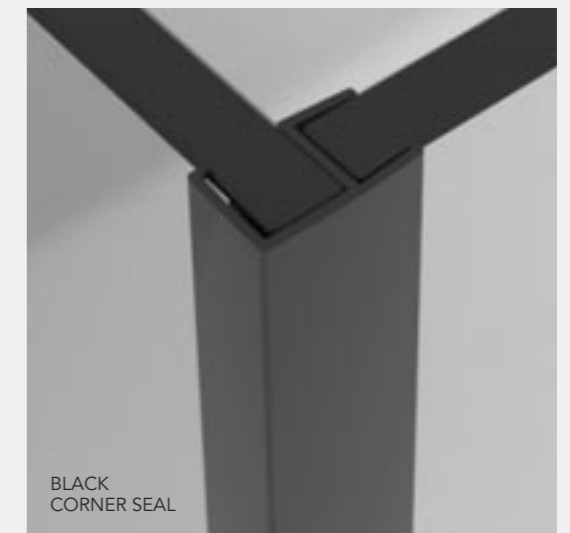

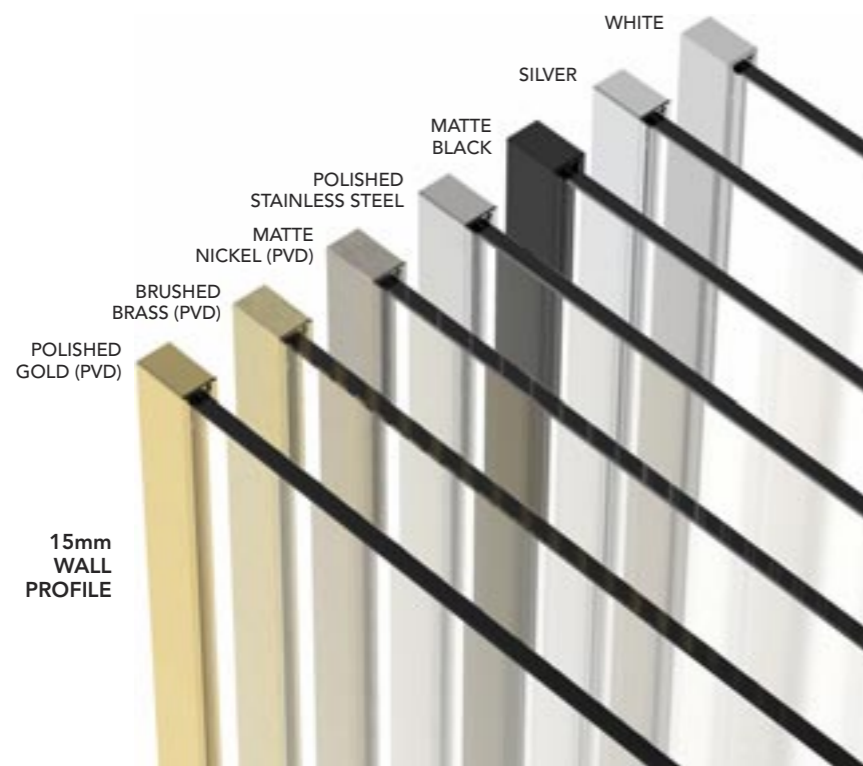

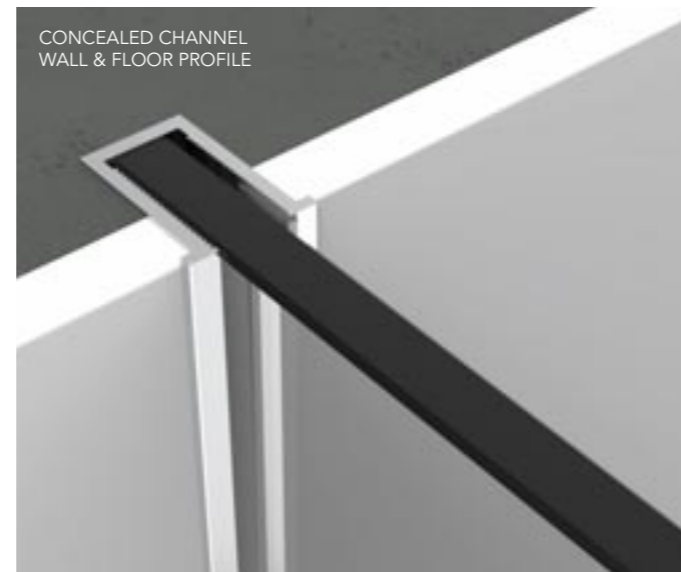

PROFILE SOLUTIONS

An array of wall profile solutions provides maximum versatility as each AYO wetroom aspiration becomes the reality.

All profile solutions are available in the standard Silver and Black options.

AYO COLOUR

Please note: 15mm Wall Profile is available the premium colours - White, Brushed Brass, Matte Nickel, Stainless Steel and Polished Gold.

SEAL SOLUTIONS

AYO maximizes your shower's visual appeal by offering an extensive selection of discreet ultra clear seal options.

STABILISING SOLUTIONS

The subtle contours of each AYO stabilising bar delivers the perfect blend of form and function. Each fixation bracket is masterfully engineered for durability, with screw points discreetly concealed from view.

An array of stabilising solutions are available in the standard Stainless Steel and Black options.

AYO COLOUR

Note: The following stabilising bar options are available in White Brushed Brass, Matte Nickel and Polished Gold PVD finish:

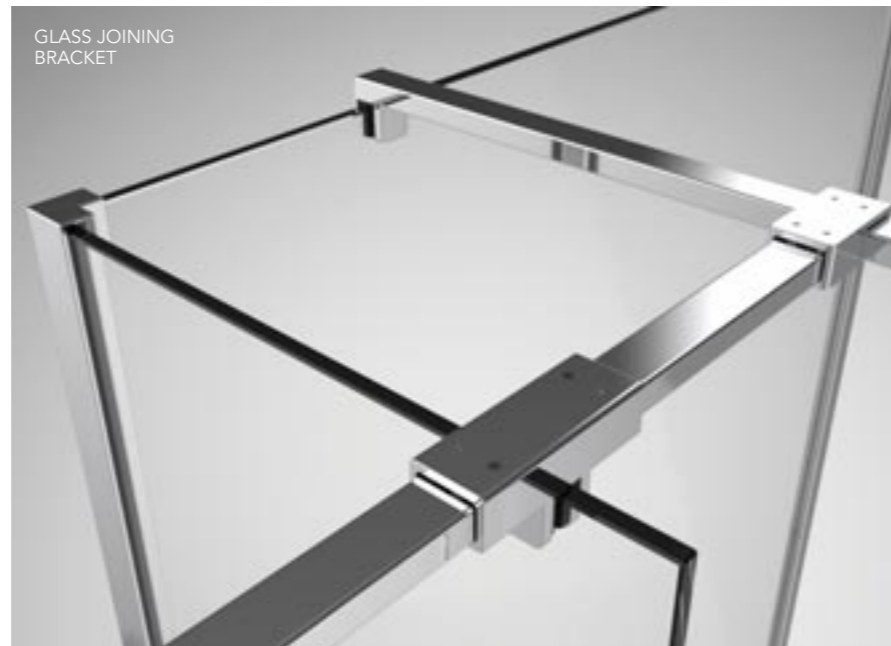

- 1200mm Straight Stabilising Bar
- 650mm Angled Stabilising Bar
- T Piece

HARMONY™

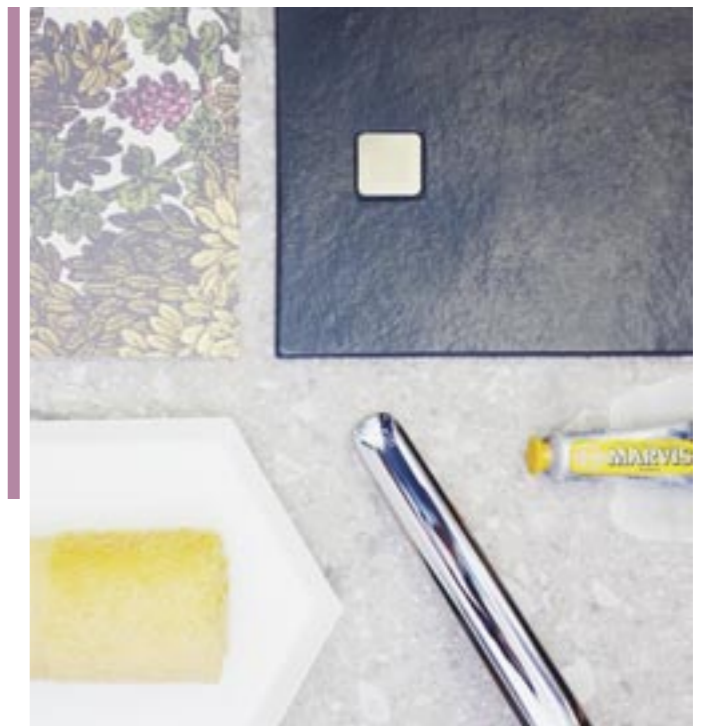

GEMSTONE

GEMSTONE SLATE TEXTURED TRAYS

The Gemstone brand is synonymous with quality and style. This extensive selection of slate textured shower trays compliment the most beautiful of bathroom designs. With an ultra minimal height of 25 to 30mm, each tray is anti-slip rated and available in 4 colour options - Onyx Black*, Graphite Black, Flint Grey or White

Choose from square or linear shape waste options, with both chrome or colour matched grille finishes available depending on customer preference. Both visually appealing and sensual to touch, a Gemstone shower tray will work perfectly in a wide variety of bathroom applications, be they classic, modern or contemporary in design.

*Onyx Black only available in 25mm height, Square waste.

FLINT GREY TRAY WITH LINEAR WASTE

GEMSTONE TRAYS

KEY FEATURES

Slate texture – a natural stone resin composite with gel coat finish

Anti slip rated – Grade 3 Rating
UNE ENV 12633:2003

Available in 4 colours – Onyx Black, White, Graphite Black & Flint Grey

Minimalist stainless steel waste cover in Square or Linear version

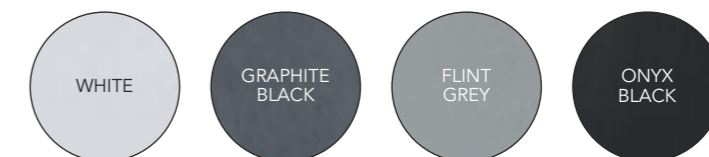

Colour matched interior waste trap (Onyx Black, Graphite Black or Flint Grey tray = Grey interior waste / White tray = White interior waste)

Supplied with 90mm McAlpine high flow waste

Now includes stone resin linear cover as standard

GEMSTONE TRAY COLOUR OPTIONS

Note: Gemstone tray colours are reproduced as accurately as the printing process will allow. There is no guarantee of exact colour match - this brochure is a visual aid only.

GEMSTONE INFORMATION

GUARANTEE

Your Gemstone tray must be inspected 100% before installation. Fitting of tray is acceptance of quality. Please read fitting instructions fully before installation.

Before tiling and placing the screen or any other fixed material on the shower tray, please make sure that the perimeters of your tray are 100% level in all directions.

The guarantee only covers the replacement or repair of the product and excludes any other compensation, assembly or travel costs.

Gemstone Trays are guaranteed for 2 years, in accordance with current European regulations.

The following are excluded from the guarantee:

- Damage caused by misuse
- Damage caused by the use of unsuitable cleaning materials (do not use products containing acids, alcohol, chlorine or solvents, do not spill drain cleaners onto the shower tray, do not use metallic or scouring pads)
- Damage caused by improper installation
- Damage caused by the improper handling of the product

Our products must be installed by qualified personnel to be eligible for the product guarantee. An installation guide will be delivered with the tray for its proper placement.

Before installing the tray you should make sure that:

- The tray drains well and is 100% level
- It has no anomalies
- The tray has been stored in a horizontal position, on a flat surface, until installation

CLEANING

- Routine: rinse and leave to dry
- Thorough: rub with a soft cloth with neutral liquid detergent; for limescale prevention use an anti-lime product

Please note, Gemstone Trays are manufactured from a natural stone resin composition. You must allow for a tray thickness tolerance of 2 - 3mm.

CHEMICAL TESTS

Chemical resistance tested in accordance with UNE-EN 12527 - No deterioration.

CHEMICAL TESTING COMPOSITION

Acetyl acid (10%), sodium hydroxide (10%), ethanol (70%), bleach, methylene blue (1%).

CLEANING SOLVENT (PRODUCT)	EXPOSURE TIME (DAYS)	RESULT OF VISUAL INSPECTION
Don Limpio Neutral PH	4	No Visible Effect
Perfumed Home Bleach	4	Slight Bleaching
Ace	4	Slight Bleaching
Perfumed Ammonia	4	No Visible Effect
Viakal	4	Slight Bleaching
Cillit Bang	4	No Visible Effect
KH-7 Anti-lime	4	No Visible Effect
White Wine Vinegar	4	No Visible Effect
Povidone Iodine	4	No Visible Effect
Hydrochloric Acid	4	No Visible Effect
Hydrogen Peroxide	4	No Visible Effect
Cleaning Solvent	4	No Visible Effect
Methylated Spirits	4	No Visible Effect
Acetone	4	No Visible Effect
Nail Polish Remover	4	No Visible Effect

PACKAGING AND STORAGE

The products are delivered packed in individual boxes with expanded polystyrene reinforcements, including the drainage grate. Gemstone trays must be stored in a horizontal position on a flat surface until installation. This prevents the tray from losing shape.

FAQ

Can it be cut?

Yes, with a diamond cutting wheel.

Note - Maximum trim of 200mm on rectangular waste trays. Maximum trim of 100mm on linear waste trays, with the cut applied to opposite end to the linear drain.

Can it be repaired?

Although they are highly resistant to any impact, we have a repair kit available to the customer. Please contact us on 01279 443 644 to order your Gemstone Tray repair kit. Lead time applies.

How should the product be cleaned?

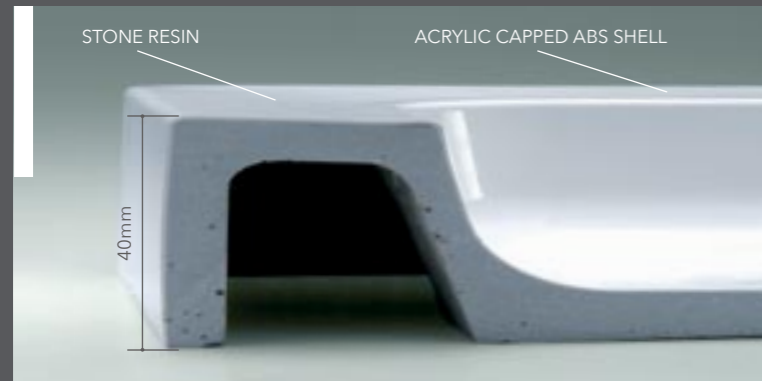

We recommend cleaning with water and neutral soap, applied with a sponge, never with scouring products or tools.

What material should I use to install the products?

Your Gemstone tray must be installed on a fully level glue-cement or mortar base. For sealing the product, it is recommended to use MS flexible polyurethane sealant and / or a neutral silicone.

FLAIR EASY PLUMB KIT

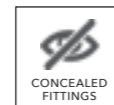

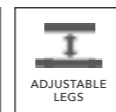

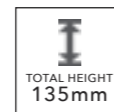

Flair slimline easy plumb shower kits have adjustable legs to comply with building regulations to assist in installation and for maintenance of waste outlets if required after building settlement.

The Flair slimline easy plumb kit provides this access without compromising on style in the bathroom.

An easy plumb tray can be made by using any of the Flair slimline trays and a kit. This will increase the height of the tray by 95mm.

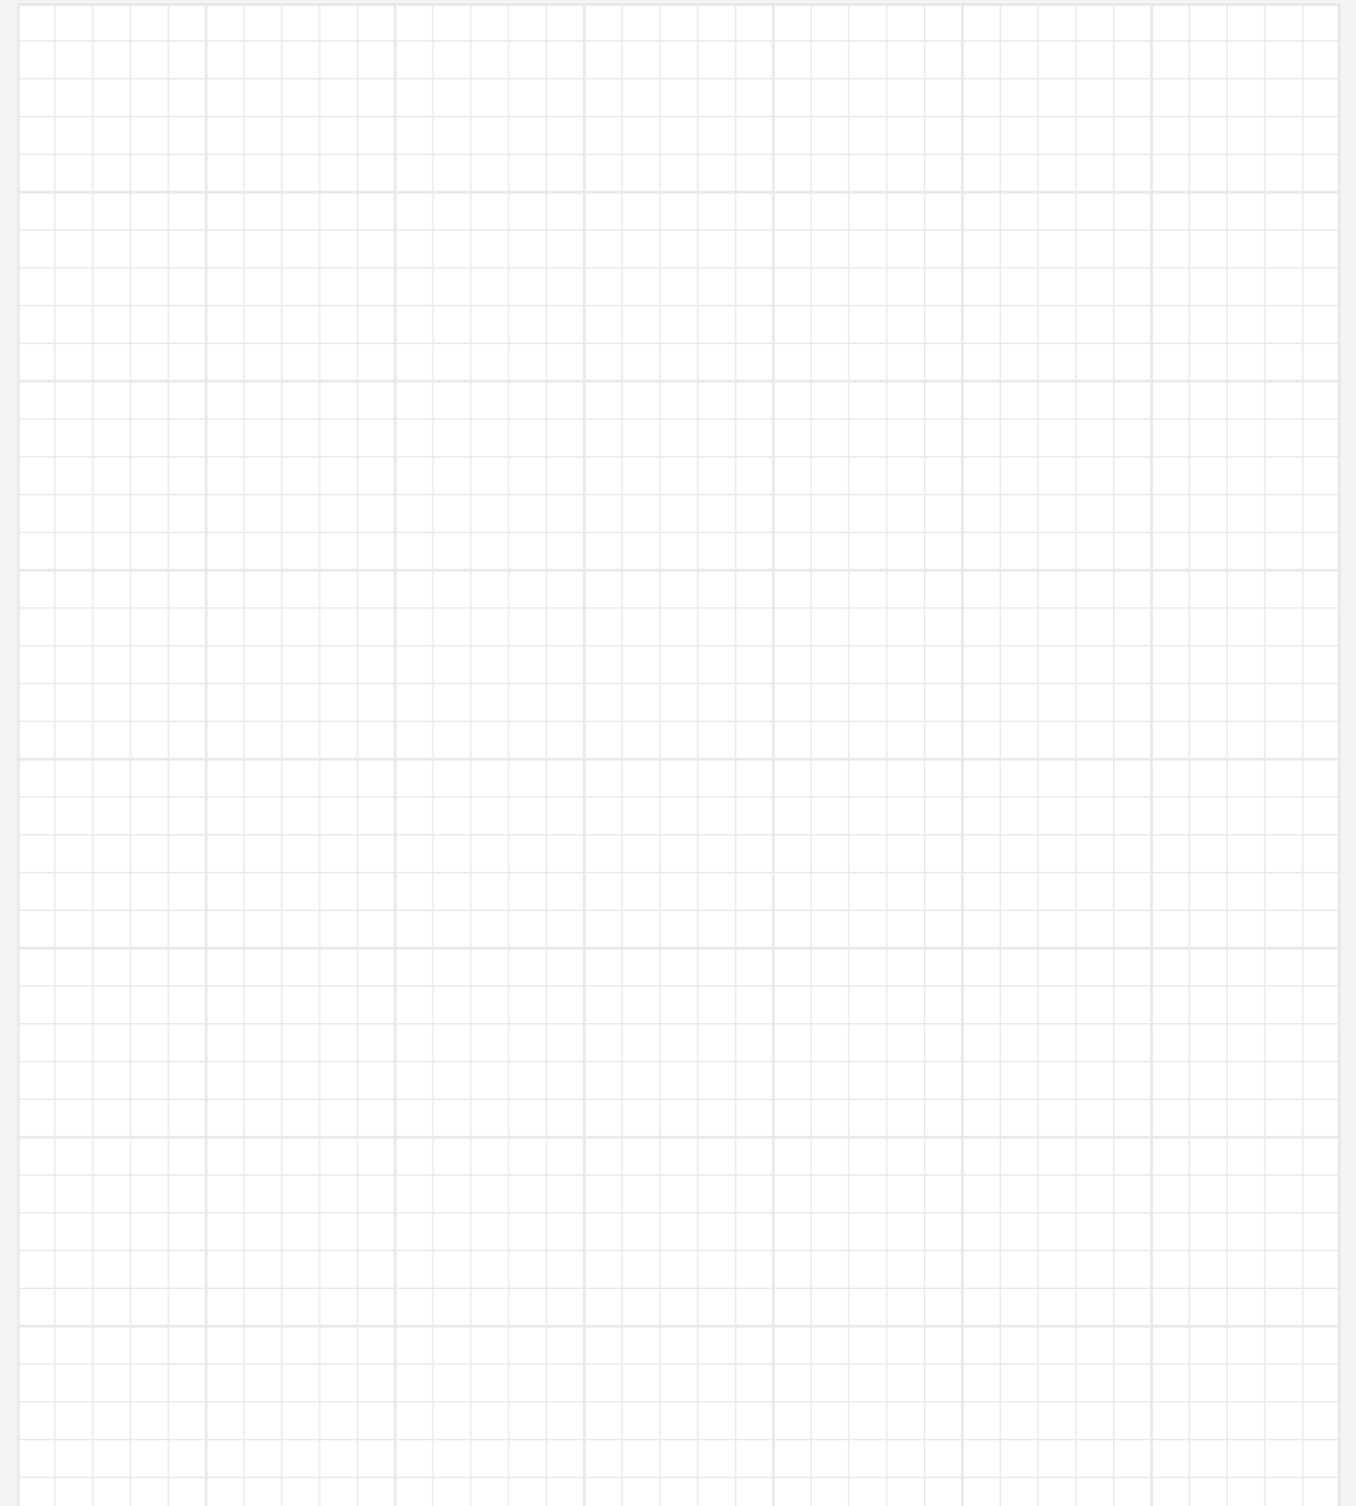

Accessories are not to scale - for visual representation only.

PRODUCT DESCRIPTION	WEIGHT	CODE
Easy Plumb Riser Kit for all Square Trays & Rectangle Trays (Suitable for maximum tray size of 1200mm)	2kg	WD3
Easy Plumb Riser Kit for all Quadrant Trays (Suitable for maximum tray size of 1200 x 900mm)	3kg	WD4
Easy Plumb Kit for all Square & Rectangle Trays (Up to 2000mm in size)	2kg	WD5

CREATE YOUR SPACE

175mm x 200mm Whole Grid = 3500mm x 4000mm

QUALITY GUARANTEED

At Flair we have an unwavering commitment to product quality.

All Flair Shower doors and wetrooms are CE approved and manufactured in accordance with ISO 9001:2000 Quality Assurance systems. All glass is toughed safety glass and produced to EN12150.

Flair products are performance tested to EN14428. Shower doors and rotating wetroom panels have been subject to lifetime shower door cycle testing consisting of 20,000 functional cycles.

Flair Shower doors and rotating wetroom panels have also been tested for their durability, stability, and water retention properties to ensure that they meet the highest possible industry standards. Water is maintained where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions. Please note - Due to the weight of certain products, they may require a two man lift.

Images shown in this catalogue are for illustrative purposes only. All descriptions contained in this catalogue are for the purpose of explaining each product more clearly and do not form part of any contract with the company.

Guarantee

ORO & ETO Shower Doors are covered by a lifetime guarantee against manufacturer defect. A lifetime guarantee constitutes a term of 20 years. AYO Wetrooms and Bathscreens are covered by a 20 year guarantee against manufacturer defect. Shower Trays are subject to manufacturer guarantee. All guarantees are valid on the condition that goods are installed and maintained in accordance with the products fitting instructions and best practices. This guarantee is for domestic use only.

***Note: Non glass and detachable parts such as seals and cover caps are subject to normal wear and tear during usage and are under statutory guarantee for 2 years from time of purchase. Glass shattering is not subject to Lifetime guarantee.**

We ask our customers to register their guarantee online at www.flairshowers.com or return the guarantee card that comes with every Flair product.

After-sales & Spare Parts Service

Flair Showers are 100% committed to customer service excellence. For ultimate peace of mind, a comprehensive range of spare parts is available for all Flair product ranges. If you would like to talk to an aftercare specialist about your Flair product, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

Return Policy

Flair will not accept return of any product that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

Cleaning Guidelines

- Glass: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with warm soapy water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit / dirt which may have collected over time.

Installation

Full installation instructions are provided with each product to ensure correct installation. All Shower doors and wetroom panels are adjustable between the dimensions stated. All dimensions are approximate.

Shower Tray Installation

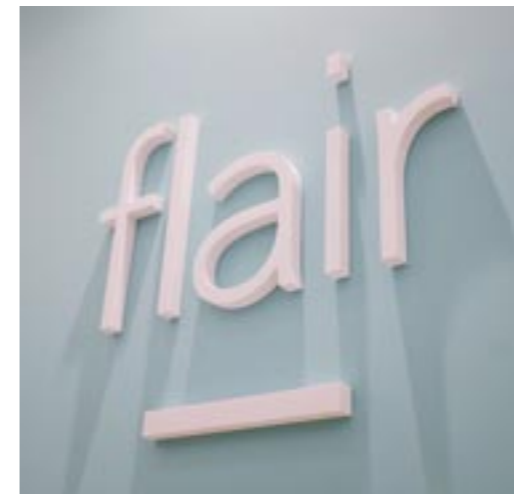

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

Conditions of Sale

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

AS PART OF OUR CONTINUING POLICY OF PRODUCT IMPROVEMENT, WE RESERVE THE RIGHT TO AMEND SPECIFICATIONS, COLOURS AND PRICES WITHOUT PRIOR NOTICE.

*Errors and Omissions Exempt.
